

REMEDICATION AND REDEVELOPMENT (RR) NEWS FROM WISCONSIN DNR
September 13, 2001

NEW BROWNFIELD SUCCESS STORY

The RR Program has released a new brownfield success story, "Milwaukee, West Milwaukee Brownfields Revitalized" (Publication # RR-668). This new brochure highlights the successful redevelopment of two large brownfield sites that bordered Milwaukee and West Milwaukee. Various businesses, including the Milwaukee Journal Sentinel, have helped revitalize these old industrial sites. The success story is available on the RR web site at <http://www.dnr.state.wi.us/org/aw/rr/index.htm> (see the Brownfields category under the Publications button). Or you can call the RR Information Line at 800-367-6076 (in-state long distance) or 608-264-6020 (Madison area or out-of-state long distance) and ask for Publication RR-668. We prepare these success stories to show how redevelopment options work in the cleanup of contaminated sites.

PILOT PROJECT FOR ELECTRONIC SUBMITTALS

Also on our web site, we have information for consultants who are interested in our pilot project for electronic submittal of reports. Use our Technical button and look for the "Electronic File Submittal Pilot Project header". A group of consultants and certain RR Program staff are working together on this pilot, testing technology to reduce the costs of preparation, shipping, and storage of documents. Consultants in the project are using Adobe Acrobat software to convert documents into a portable document format file (pdf) that can be submitted on CD-ROM disk. We will also review submitting documents as email attachments at a later time. Right now, however, consultants need to include a paper version of the original signature page and any applicable fee with the disk. The list of participating consultants, participating staff, and procedures for electronic submittals are described on the web. <http://www.dnr.state.wi.us/org/aw/rr/index.htm>
